

OMEGAGUARD®

The World's Finest Fish Oil

Protect Your Heart

OmegaGuard provides full-spectrum potency of ultra pure, pharmaceutical grade omega-3 fatty acids.

Helps Reduce the Risk of Heart Disease

Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. One serving of OmegaGuard provides 905 mg of EPA and DHA omega-3 fatty acids.*

Ultrapure and Pharmaceutical Grade

OmegaGuard is made with a proprietary, triple molecular distillation process that concentrates the natural beneficial omega-3 fatty acids while removing harmful compounds like mercury and lead that are found in many types of fish.

World's Finest Fish Oil

Contains a full spectrum of seven naturally occurring omega-3 fatty acids EPA, DHA, ALA, and more. EPA benefits your heart and joints, while DHA is critical for brain development and function.*
